The winners of the Catch a Star 2018 Contest have been announced. Each winner will receive a mounted image featuring ESO telescopes in Chile, courtesy of ESO, such as the awe-inspiring [Whirling Southern Star Trails over ALMA](#). Additionally, the European Association for Astronomy Education is providing the top 2 winners and the new special category winner with the unique opportunity to hold a video conference with a professional astronomer.

The prizes were awarded as follows:

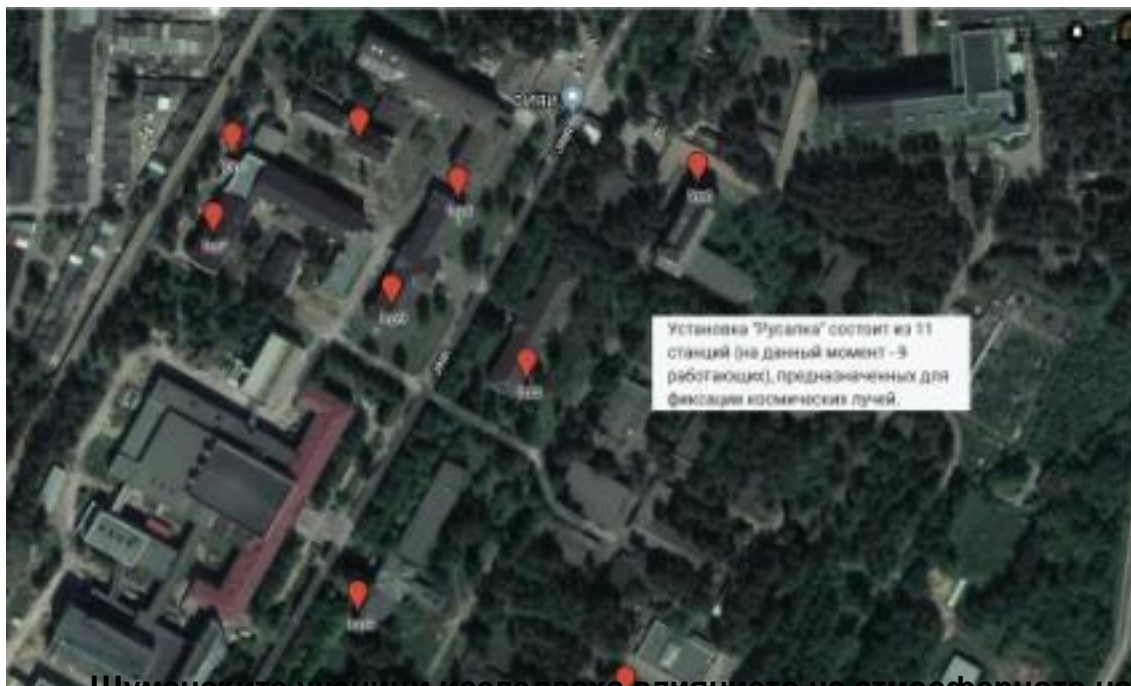

**First prize:** "Detecting the exoplanet HD189733b" by Carl-Fuhlrott-Gymnasium Wuppertal/Germany

**Second prize:** "Cosmic rays" by Specialised Language High School "N.Y. Vaptsarov", Shumen, Bulgaria

**Third prize:** "Low Cost Astrobiology Studies" by Colegio Huerta de la Cruz, Cádiz, Spain

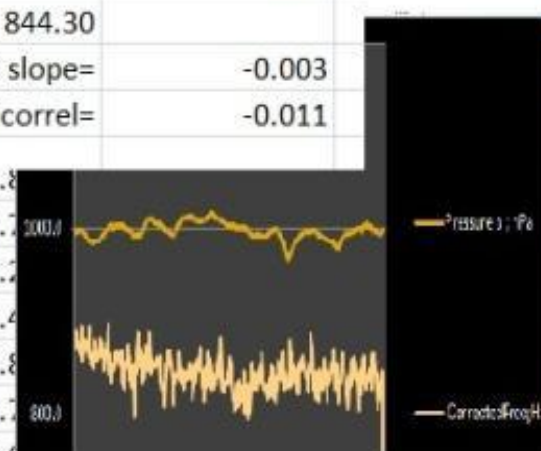

**Fourth prize:** "Calculations of the energy escaping from a black hole" by Evangelisches Gymnasium, Lippstadt, Germany

Екатерина Петкова, Мария Иванова и Нихат Енчев са ученици в единадесети клас на ПЕГ „Н. Й.

Шуменските ученици изследваха влиянието на атмосферното налягане върху вторични
